#### **Section 4 - First-aid Measures**

**Inhalation**Move to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way

valve or other proper respiratory medical device. Get medical attention immediately.

Remove contaminated clothing and shoes. Immediately flush skin with plenty of water. Get prompt medical attention. Wash

contaminated clothing before reuse.

Immediately flush eyes with plenty of water for at least 20 minutes, occasionally lifting the upper and lower eyelids. Check and Eve contact

remove contact lenses. Continue to rinse for at least 10 minutes. Get medical attention immediately.

Rinse mouth thoroughly with water. DO NOT induce vomiting. If victim is fully conscious, give a cupful of water. Never give anything by mouth to an unconscious person. If vomiting occurs, keep head lower than the hips to help prevent aspiration. Call

a physician or poison control center immediately.

Most Important symptoms /effects, acute and delayed

Skin contact

Ingestion

Causes skin and eye burns. May cause respiratory tract irritation. Symptoms may be delayed.

Indication of immediate medical attention and special treatment

Treat symptomatically.

**General Information** 

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Immediate

medical attention is required. In case of shortness of breath, give oxygen. Keep victim warm.
